AY

EXPERIENCE

Developed backend services

[Omegastream.net](#)

07/2020 - Present Location

- Developed backend services for a cloud-based video streaming platform with secure storage, CDN delivery, and API integrations
- Worked on scalable architecture, automation, and content protection mechanisms for high-traffic media workloads

CTO

[Mabet.com.sa - Saudi Arabia](#)

02/2023 Saudi Arabia

- Led backend development of a dual-app booking platform serving 60,000+ users with high availability and zero major downtime
- Designed a microservices architecture across AWS, Oracle Cloud, and CloudFront CDN
- Integrated Saudi government platforms (Nafath, Absher, Ministry of Tourism APIs) and local payment gateways
- Implemented real-time features using WebSockets and ensured secure, scalable system operations

Backend Developer

[Futech](#)

08/2015 - 03/2017 Location

ERP Systems

- Developed backend components for ERP platforms
- Implemented business logic, APIs, and database-driven workflows
- Optimized system performance and data integrity

EDUCATION

Bachelor's degree in computer & Control Systems Engineering

[Kafr El-Sheikh University](#)

09/2013 - 05/2020 Location

- CS50 - Introduction to Computer Science (Harvard University) | In Progress

PROJECTS

Cloud-based Video Streaming Platform

02/2023 Omegastream.net

Developed backend services for a cloud-based video streaming platform with secure storage, CDN delivery, and API integrations

- Led backend development of a dual-app booking platform serving 60,000+ users with high availability and zero major downtime.
- Designed a microservices architecture across AWS, Oracle Cloud, and CloudFront CDN.
- Integrated Saudi government platforms (Nafath, Absher, Ministry of Tourism APIs) and local payment gateways.
- Implemented real-time features using WebSockets and ensured secure, scalable system operations.

SUMMARY

Senior Backend Engineer | Laravel & SaaS Architect | CTO Experience Senior Backend Engineer with 7+ years of experience building scalable, secure, and high-performance systems. Currently working as CTO, leading architecture, backend development, and integrations for production SaaS platforms. Strong expertise in Laravel, PHP, APIs, payment gateways, systems design, and performance optimization. Experienced in delivering real business value - not just writing code.
